

MEET THE NEWEST ADVANCEMENT IN WATER COOLERS SINCE THE BOTTLE. NOTICE ANYTHING MISSING?

Well okay maybe they're not as new as you might think. We actually first introduced our Bottless Water Coolers, to the local market, back in 1989.

Today, in our latest models, we've combined a top quality Cordley® water cooler with our Light Commercial 25 gallon per day Reverse Osmosis System, providing you with a continuously re-filling reservoir of great tasting purified water. Now you'll never have to deal with the hassle of changing, storing, lifting or spilled bottles that are of questionable

quality again. And, best of all, our coolers are available in either Cold-Room or Hot-Cold-Room temp models.

Our units are great money savers in offices and the work place where bottled water is used. They are convenient, attractive and will easily fit in lunchrooms and hallways.

So why deal with the hassle of bottles any more? Have one of our trained installers come out and perform an installation in a convenient timely manner for you. Give us a call at 321-777-4909.

ALL UNITS ARE AVAILABLE FOR SALE OR LEASE NOW
